

Instructions for Preparation and Submission of Papers for NCC 2019

Abstract—This note provides instructions for the preparation of papers for submission to NCC 2019, and the relevant style file that produced this page.

I. INTRODUCTION

NCC 2019 will be held at the ECE Department in the Indian Institute of Science (IISc), Bangalore, India, from Thursday, Feb. 20 to Saturday, Feb. 23, 2019.

II. SUBMISSION AND REVIEW PROCESS

Papers will be reviewed on the basis of a manuscript of sufficient detail to permit reasonable evaluation. The manuscript should **not exceed SIX double-column pages, with single line spacing, main text font size no smaller than 10 points, and at least 0.5 inch margins**. The deadline for submission is **Saturday, Sep. 15, 2018**, with notification of decisions by **Friday, Nov. 30, 2018**. The deadline for the final camera-ready paper is **Sunday, Dec. 30, 2018**. Final manuscript guidelines will be made available after the notification of decisions.

Important Note: All submitted papers will be judged based on their quality and relevance through **double-blind reviewing**, where the identities of the authors are withheld from the reviewers. As an author, you are required to preserve the anonymity of your submission, while at the same time allowing the reader to fully grasp the context of related past work, including your own. Common sense and careful writing will go a long way towards preserving anonymity. Papers that do not conform with our double-blind submission policies will be rejected without review.

Note that, with double blind submissions and reviews, the only way the TPC Chairs will know the authors of a paper is if **all authors are listed in the EDAS portal**, as this information is not available in the PDF. Therefore, it is very important to include all authors in the EDAS portal. To do this, after registering the title, abstract and topics for the paper on EDAS, in the second page, you **MUST** add all authors who contributed to the paper. **The TPC Chairs will not be able to add authors after paper acceptance.**

III. PREPARATION OF THE PAPER

Only electronic submissions in the form of a Postscript (PS) or Portable Document Format (PDF) file will be accepted. Most authors will prepare their papers with \LaTeX . The \LaTeX style file (`IEEEtran.cls`) and the \LaTeX source (`ncc2019_example.tex`) that produced this page may be downloaded from the NCC 2019 web site (<http://ece.iisc.ernet.in/~ncc2019>). Do not change the style file in any way. Authors using other means to prepare their

manuscripts should attempt to duplicate the style of this example as closely as possible.

The style of references, e.g., [1],[2],[3],[4], equations, figures, tables, etc., should be the same as for the *IEEE Transactions on Information Theory*.

IV. ELECTRONIC SUBMISSION

The paper submission portal is EDAS:

- Communications Track:
<https://edas.info/newPaper.php?c=25340&track=92756>
- Networks Track:
<https://edas.info/newPaper.php?c=25340&track=92757>
- Signal Processing Track:
<https://edas.info/newPaper.php?c=25340&track=92758>

For relevant announcements please check the NCC 2019 website (<http://ece.iisc.ernet.in/~ncc2019>).

V. CONCLUSION

Conclusions, if any, go here.

ACKNOWLEDGMENT

We thank everyone who helped us.
